

# OPENET

## CYBER AWARENESS TRAINING

Businesses every day face the daunting challenge of addressing their cyber security risk. However, very few have the resources, or knowledge of where to start and what critical actions to take.

We have specifically designed a cyber security toolkit and awareness training to give you a clear and actionable roadmap to make your business more secure.

### Awareness Training

All training is based on real-world events and each lesson is less than 4 mins in length, in full animation. Highly engaging and relevant.

### Phishing Simulation

Set up your campaigns once and have your phishing simulations run on auto-pilot for 12 months.

### Awareness Resources

Templates, documents and posters to help you implement your cyber security programme

### Who In Your Company Is Most Vulnerable To A Phishing Attack?

**It Might Not Be Who You Think!**

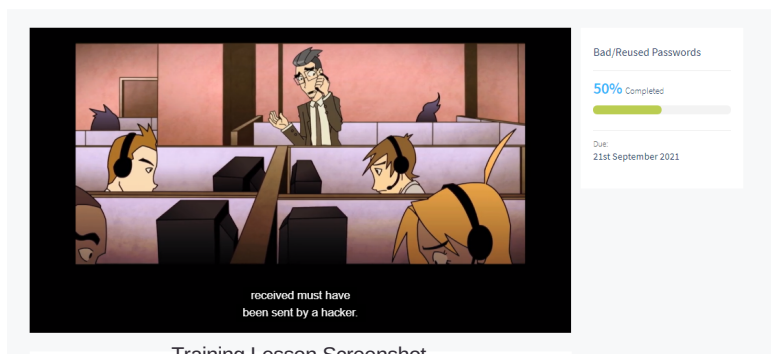

- High Quality Content
- Meaningful, Detailed Reports
- Industry Specific Content
- Smart Training Enrolment
- Always Growing Library
- Legal/Policy Templates
